## Active approved specialists by speciality 1 Jan. 2014 (active and/or under age of retirement, and living/working in the country)

Only the 30 largest specialties are noted here. Please note that a physician may be approved in more than one speciality and may thus appear more than once in the table, except for Denmark (see footnote 1). But for the total number for all specialties, this is not so. This number includes all approved specialists, but counting each specialist only once.
